

Alberta Crop Report.

Condition of the crop in Alberta at this date may be said, generally speaking, to be quite satisfactory. While in southern Alberta a hot, dry spell of about 3 weeks caused considerable alarm and retarded the growth of grain in some districts to a considerable extent, also burning the pastures and ranges, this period of drought was broken last week by rains which became general over most of the south country towards the end of the week, greatly improving conditions and bringing fresh hope for a fairly normal crop of wheat. The only exception is the territory lying between the Coronation line of the C.P.R. on the north, and the Red Deer River on the south, where there are districts in which the drought burned the growing grain to such an extent that full recovery is not possible and the result will be a light yield. These districts have also received some rain within the past few days, however, that will prevent a complete failure.

The extreme southeastern districts have received considerable moisture recently, particularly in the Foremost district, where heavy rainfalls have been recorded. In the southwestern areas crops on stubble land and spring plowing suffered somewhat and there cannot be full recovery of these crops, but grain on summer-fallow has stood up well and is progressing favorably.

In central and northern districts prospects are reported to be fine, with a good supply of moisture from rains of the past week, and with the grain progressing favorably. In the Peace River district the crop is somewhat late, but appears to be coming on well with an abundance of moisture. Wheat is heading out in nearly all districts, save in the north, where it is somewhat late. In some of the southern districts the grain is heading out quite short. The first alfalfa cutting is proceeding.

United Church Picnic.

The Knox United Church picnic held at the Dog Pound near Vogel's farm on Saturday was a great treat for those who attended. The weather was fine and the spot ideal for a picnic. Owing to the holiday there were quite a number of the children and congregation absent, but those who were present had a most enjoyable time.

The members of the Sunday school staff wish to take this opportunity of thanking Mr. Vogel for use of the picnic ground; Mr. Aldhead for use of his truck, and other members of the congregation who used their cars for the transportation of the children.

Picture Show Changes Dates

Mr. Sharp wishes to announce that for July and August the regular schedule of shows at the Didsbury Opera House will change from Monday and Thursday nights to Friday and Saturday nights, commencing next week, July 14th and 15th. Prices will be as usual.

This week the show will be held on Saturday only—afternoon 3 o'clock, evening 7:30 and 9 o'clock. The afternoon prices will be 10c and 15c, while the regular prices will be in force for the evening shows.

This week the program will feature Will Rogers and Marian Nixon in "Too Busy To Work." Added attractions will be—Pathe Newscell, cartoon and comedy.

Misses Grace Hunsperger and Madlin Snyder, who have been on a month's visit to the east, returned home this week.

In the south, with prospects of a late yield. The general hay crop will be somewhat lighter this year.

LOCAL & GENERAL

Mr. E. G. Ranton and son Bill spent their holiday at Calgary.

Miss Mabel Creighton, of Calgary visited friends here over weekend.

Harold Hardy has moved his battery shop to his old stand on the north side of Oiler Street.

Mr. and Mrs. W. J. Hilliard visited with friends at Lethbridge over the holiday.

Mr. and Mrs. W. Smith motored to Banff and Field during the weekend.

N. Nowak attended a re-union picnic with his parents and relatives at Banff on July 1st.

Messrs. Hugh Roberts and W. Atkinson made a business trip to Calgary last Thursday.

Mrs. Phillipson and son Ormond are spending a vacation motoring in the Banff holiday park.

Mr. and Mrs. C. E. Marcellus, and Mr. Cliff Bellamy, holidayed at Sylvan Lake over the weekend.

In the schedule of salaries published last week, the 1st assistant High School teacher's salary should have read "\$1,300 per year."

Miss L. Knudvig and Miss Alice Miller, of the Hospital staff, are spending their vacation at Sylvan Lake.

Miss Nellie Wilson went to Calgary on Monday for medical treatment. She was accompanied by her sister, Mrs. B. St. Clair.

Postmaster Morgan left Saturday for North Battleford, Sask., where he will attend the Saskatchewan postmasters' convention.

The Canadian Legion will hold a picnic for members and their families at the Little Red Deer on Wednesday July 19th.

Mr. and Mrs. Victor Conradson, of Seattle, Washington, motored to Didsbury and are visiting relatives at the Rodney Ridge Farm.

Mr. Chas. Mortimer was exhibiting an 18-inch trout weighing 3-lbs., which he caught in the Red Deer on Dominion Day. He also landed several other good ones.

Geo. McKenzie-Grieve and Scotty Sinclair made a fishing trip to Pine Lake last weekend. George says he saw a 15-lb. pike caught, but he was not the lucky one.

Maj. Gen'l. Greisbach, Edmonton visited at the Ranton home on Wednesday.

Miss Bertha Brillinger, of Toronto is visiting with Mr. and Mrs. J. V. Berscht.

Miss M. Saugstad, of the telephone staff is taking her vacation and left Monday for Portland, Ore.

Miss Florence O'Brien left on Monday for Vancouver and other coast points.

Miss Belle Milligan, of Calgary was a weekend visitor with Mr. and Mrs. McGhee.

W. R. Hartley spent the holiday with Albert Prew and Mr. and Mrs. J. J. Steekley at the latter's farm.

Mr. John Berscht, of New Westminster is visiting with Mr. J. V. Berscht, and his son Mr. Ed. Berscht, of Elkton.

Rev. F. S. Spier will preach at the morning service at Zion Evangelical Church next Sunday. There will be no service in the evening.

Miss Rachel Ford, who has been visiting her nephews, the Ford brothers, left for her home at Syracuse, N.Y. on Friday.

Mr. and Mrs. Dave Sinclair and their guests, Mr. and Miss Landreth spent Dominion Day at Sylvan Lake.

Mr. and Mrs. Tom Morris celebrated their second wedding anniversary on July 1st, when they took a motor trip through the mountains, including Banff and the Windermere Trail, returning via the Crow's Nest Pass and spending a half-day on the E.P. Ranch at High River. They were accompanied by their infant son Kenneth, Jim Morris, and Mr. A. W. Morris, of Toronto, father of Tom and Jim, who has been visiting here for the past month. Mr. Morris left for Toronto on Tuesday.

Fishing Good Over Weekend

The holiday weekend has proved more than usually enjoyable to the fishing enthusiasts, a large number of the sporting fraternity going to the west country. For the first weekend this season fishing was excellent in all waters and all report good catches.

Geo. Julien, who fished in the Big Red is reported as having hooked the largest trout—measuring 25 inches long, while Jack Fleury landed several 3-pounders in the Fallen Timber.

Clint Reiber, Jim McGhee, Jim Kirby and Jack McElroy and Tommy Johnson fished in the Clearwater and tributaries. They say it was tough going, but they came home with full creels.

Increased Entries At Calgary Exhibition

Entries for the livestock show at the Calgary Exhibition next week totalled 1,055, an increase of 43 over the 1932 total of 1,012. Robt. Thomson, superintendent of livestock said Monday.

There are 461 entries in the horse division, and although larger entries have been received, quality this year is better than in previous years. The best breeders and exhibitors in western Canada have made entries, Mr. Thomson stated.

There are 309 entries in the cattle classes; 154 sheep and 161 swine.

KNOX UNITED CHURCH NOTES

The service at Westcott will commence at 10:30 a.m. for the next three months. The subject for consideration next Sunday will be, "The Life of Caleb."

WORLD HAPPENINGS BRIEFLY TOLD

Two days were all that was necessary for the people of Ontario to absorb completely an issue of \$25,000,000 provincial bonds.

It is estimated Chinese lost 50,000 men and the Japanese 10,000 in the intermittent warfare in North China, Manchuria and Jehol during the past 20 months.

Single workless from Edmonton and Calgary have gone to British Columbia to construct airports under the unemployed relief scheme of the Dominion Government.

Since the beginning of the current crop year, August 1, 1932, Canada's exports of wheat are 57,000,000 bushels in excess of the figures for the corresponding period last year.

Immigration to Canada for the first four months of 1933 totalled 4,362, a decline of 28 per cent. from the same period a year ago, according to figures issued by the Department of Immigration at Ottawa.

Lieut.-Col. P. R. Shields, Calgary, was elected vice-president for western Canada at the Canadian Army Service Corps annual meeting at Ottawa. Lieut.-Col. P. R. Shields, Vancouver, was chosen western representative on the reserve of officers.

Montreal celebrated the centenary of the foundation of the city council with the unveiling of a plaque to the memory of Jacques Viger, Montreal's first mayor, and a ceremonial meeting of the members of the city council.

The King has approved the appointment of Lord Braden, distinguished barrister, as governor of Bombay in succession to Sir Frederick Hugh Styles whose term of office expires in December. Sir Frederick has occupied the post since 1928.

The Canadian butter trade has more to fear from over-production of butter for the Canadian market than it has from imports of butter from New Zealand. Hon. H. H. Stevens, Federal Minister of Trade and Commerce, told a delegation from the Okanagan Valley Co-Operative Creamery Association.

Seeking Market In Canada

Bermuda Agriculturists Investigating Result Of Recent Vegetable Shipments

Inauguration of a regular service of vessels between Bermuda and Quebec city is fore-shadowed by W. R. Evans, assistant director of agriculture in Bermuda, who came to study the results of a recent experiment in the shipment of potatoes and celery on the S.S. Chomedy from Bermuda to the food markets of the ancient capital.

The cargo of the Chomedy was the first consignment of Bermudian vegetable products ever unloaded at Quebec.

According to Mr. Evans, Bermuda's vegetable season dovetails that of Canada.

Old Books Again Used

Bible and Prayer Book First Used In Australia In 1788

The first Bible and Prayer Book taken into Australia were used at the recent anniversary service in St. Philip's Church, Sydney. The books were carried by the Rev. Richard Johnson when he landed, 145 years ago. Mr. Johnson was the first chaplain of the settlement founded in Sydney Cove by the First Fleet bringing settlers to the new continent. Both books bear the inscription "Botany Bay 1788," but as the sailing of the fleet was delayed they were first used in Australia on January 27, 1788. Ten years later they narrowly escaped destruction in a fire which burned down the first church.

Horse Stealing Revived

Horse stealing is not a lost art, according to James Chettrand, who has requested authorities to trace twenty horses missing from his 4,000-acre ranch on the Saskatchewan-United States boundary. An intensive search of the huge range was made for 100 missing horses, but only 80 were found.

W. N. U. 1938

Dwarf Had Giant's Courage

Attempted To Walk From Italy To North Pole Alone

Giant's courage was possessed by Anton Gittinger, a dwarf of Milan, Italy, so he decided to walk to North Pole alone. He went to Norway and got a Polar outfit and dogs, then went to Greenland. Eventually his supplies gave out and he killed and ate his dogs, only the last one escaping by running away. He was left stranded on the icefields starving to death. There he was found by the explorer Rasmussen, lying in the snow and too weak to walk. The exploring party adopted the tiny man and nursed him back to life. They kept him with them for the two years of their exploration. At present he is planning a walking trip to Africa, and may later set off for the Himalayas.

Close Mounted Police Posts

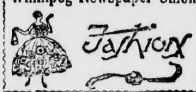

Reported That Three Posts In North To Be Abandoned

Three RCMP posts in the far north will be closed under an economy reorganization plan, according to Major-General J. H. MacBrien, commissioner of the force.

The posts to be closed are at Liard, Hay River, and Wrigley. It is planned to handle the Hay River post from Providence, while Simpson will provide patrols to the Liard district and Wrigley.

General MacBrien plans to go to Edmonton in August for a trip of inspection as far north as Alkaiak.

ACTRESS POPE'S KIN

Miss Sandra Ratti, niece of Pope, who is pursuing the career of a film actress in Rome following her winning of permission from her illustrious uncle. However, the Puffin specified that his niece change her name to Ravel. Her first film was a big success.

Keen Interest In Silver

Price Means Everything To British Columbia Mining Camps

Silver, subject of many conferences and plans for boosting its price, has taken by storm the mining camps of British Columbia. Silver is everything to the people in the northern districts and is the sole topic of their talks and thoughts.

Higher prices for the white metal would be the solution to all their problems. Just as the price of wheat is the main interest of farmers on the western prairie, so is the price of silver the hub around which these miners live their lives. They talk silver and dream silver.

Their hopes raised by the advocacy of bimetallics for its remonetization, they read every word on the subject of silver and listen eagerly to lectures and discussions. If the price would rise 10 cents, they say, a dozen mines would reopen; if silver should advance to 40 or 50 cents an ounce the country again would be a hive of industry.

Railway Registers Increase

Minister Of Railways Sees Signs Of Improved Conditions

It was only \$2,500 one grain of sand on the seashore, but it brought a wide grin of satisfaction to the face of Hon. R. J. Munce, Minister of Railways. That sum represented the gain in the revenues of the Canadian National Railways for the 10-day period ending May 31 over the preceding 10 days.

It was the second time since July, 1929, and the first since October, 1931, the revenues of the government road showed an increase and was construed by Dr. Munce as another sign that old man depression finally was being tossed for a fall.

A new war tank has been developed in England that can run on water at six miles an hour and 42 miles on land.

Origin Of "Gerrymander"

Word Coined Years Ago During Redistribution Of Massachusetts Districts

The word "gerrymander" is used so frequently by speakers in reference to the Redistribution Bill now being debated at Ottawa that the origin of the word is worth recalling.

When Elbridge Gerry (1744-1814) was governor of Massachusetts from 1810 to 1812, he was largely responsible for a law dividing the state into Senatorial districts which gave the government unfair advantage over the opposition. The redistribution of the districts was made in such a way that the shapes of the towns forming a single district in Essex County, Massachusetts gave to the map of the district a semi-wild dragon-like contour. This was indicated upon a map of Massachusetts which Benjamin Russell, an ardent Federalist and editor of the "Centinel," hung over the desk in his office. The celebrated painter, Gilbert Stuart, coming into the office one day and observing the uncanny figure, added with his pencil a head, wings, and claws, and exclaimed, "That will do for a salamander!" "Better say a Gerrymander!" growled the editor; and the outlandish name, thus duly coined, soon came into general currency.

Elbridge Gerry became vice-president of the United States in 1813, which position he held until his death at Washington on November 23, 1814. Gerrymander is pronounced with a hard G as the statesman's name was pronounced.—St. Thomas Times-Journal.

School Of Dramatics

University Of Alberta Extension Department Offering Course

Insuring an entirely new departure in the field of the drama, the Department of Extension of the University of Alberta is offering this summer for the first time a dramatic school, which will be held at Banff for three weeks, from August 7 to 25. This school has been made possible through the generosity of the Carnegie Foundation grant, which, in 1932, granted the University of Alberta \$20,000 to be spent in three years throughout the province in the furtherance of education and appreciation of the drama. This summer sees the beginning of what is hoped to be a Dominion-wide movement, and that it has set its roots in the west should make all westerners feel justly proud. The object of the school has been pointed out, and will be attained through instruction in courses such as theatrical design and stage craft, costume and make-up, the art of acting and direction.

Blind Phone Operators

About 100 of the blind ex-service men in St. Dunstan's Institution for the Blind held positions as telephone operators. A St. Dunstan's man, Thomas Duncan, has been appointed telephonist at the new Hull electric city showrooms.

That its planes have flown 10,000, 000 miles with only five accidents involving injury to passengers, has just been announced by a British aviation company.

"Didn't I tell you to go round an re-assure the passengers?" "Ay, ay, Sir—and it looks like being a long job." The Humourist, London.

Work of Daughters Of Empire

Distribution Of Milk To Under-Nourished Children One Of Many Efforts

If the Independent Order of the Daughters of the Empire did no other work in the past year, its contribution to the well-being of the Dominion in supply of milk to underprivileged and under-nourished children would in itself constitute a worthy record.

"It would be impossible to estimate even the quantity of the work to which this would run," the national convener of child welfare, Mrs. A. U. de Pencier, of Vancouver, said in an interview at Edmonton. "But it is safe to say that nearly every chapter in the Dominion has participated in this form of relief work," she added.

"In one instance in British Columbia, \$927 was spent by three chapters; one of these gave 1,900 quarts a month to school children. Of chapters heard from in the province of Quebec, \$2,564 was expended, one chapter spending \$300. In Nova Scotia, there was record of \$1,447 having been spent on milk."

"Clinics are supported in many centres by chapters, and expenses for vaccination and dental work borne where parents are unable to pay for these health services. Preventorium, sanatorium and solarium maintenance and summer camps are other noteworthy efforts to which the order has devoted itself in the past year," Mrs. de Pencier stated.

Thirty-two clubs are maintained in the preventorium in Toronto, and Saskatchewan chapters donated some \$1,000 to preventorium work and have supported innumerable clinics. Seven Vancouver chapters have assisted the solarium on Vancouver Island, supplying layettes and other clothing and boots and shoes.

"Hot lunches and hospital cars are other phases of child welfare endeavors which have held the attention of chapters across the Dominion during the past 12 months," Mrs. de Pencier concluded.

Mrs. J. H. Holmes, of Saskatoon, a vice-president of the national executive of the Independent Order of Daughters of the Empire, and former provincial president of Saskatchewan, had the distinction of being the only member to receive a national life membership this year.

Ratification of this life membership was made at a session of the annual chapter, meeting at Edmonton.

The Lighter Side Of Life

A Little Humor Helps To Make Life Better and Brighter

It is not recorded who first said, "A little nonsense now and then is relished by the best of men." But who ever it was, he might with equal accuracy have observed that a great deal of nonsense is relished at any time by most men. In business or pleasure, a laugh is as hungrily sought as anything else that may be on the programme. The business of living is involved in so many hardships and worries that the most thoughtful nonsense helps to make life lighter and better. It has been said that a sense of humor is a saving grace; but no two people seem to have the same sense of humor. Perhaps the best is that which enables one to see enough of the funny side of the experiences of life, tragic as some of them are, to laugh his way through difficulties and to perceive the laughable side of the thing when fate drives him through the blarney patches.—Moncton Transcript.

Intentions Were Good

James was at a dinner party. He was shy and could never summon up courage to speak because of his inability to say anything new. All the evening he had been trying to think of something nice to say to his hostess. At last he thought he saw his chance.

"What a small appetite you have, Mr. Jones," said his charming hostess with a smile.

"To sit next to you," he replied gallantly, "would cause any man to lose his appetite."

Sales of automobiles in Germany continues to outnumber those of a year ago.

LOCAL & GENERAL

Miss Jessie McCoy was winner of 1st prize for the decorated car at the Carists' stamper Wednesday. The car was tastefully decorated with roses, which made a splendid effect.

Mr. Alex Gould, of Vancouver visited with Mr. and Mrs. Sam Franklin on Tuesday. Mr. Gould is an oldtimer of the Cremona district.

Mrs. W. G. Liesemer, Mrs. Geo. Liesemer, Mrs. H. C. Liesemer, Mrs. Jack Pearson, and Miss Evelyn Liesemer celebrated the 4th of July in Calgary.

N. Nowak, the harness maker and shoe repairer is moving his present establishment this week into the building next door west, formerly occupied by the Hardy Battery Shop.

Morgan Cressman reports that the wheat he seeded in late March is now heading out, and his later sown wheat is in the boot. He is predicting an early harvest.

Miss Bessie Moyle, Miss Iva Rupp and Miss Edna Helm left Tuesday morning for Edmonton to attend the summer school at the University of Alberta.

George and Arthur Boorman, Ed Carleton, Don Philomen and Harold Erb went to Gull Lake on Monday to the United Church Boys' Camp at that place.

Mr. Ernie Traub, who has been teaching school at Owen, came home this week for his summer vacation. He was accompanied by Misses Pearl Frey and Mildred Bingerman, of Alsask.

Mr. Chas. Mardon's car overturned on the Rossford hill Tuesday afternoon, when the transmission gears gave way. Mr. and Mrs. Mardon and boys, who were in the car, were badly shaken, but received no serious injuries.

Mr. W. Landreth and Miss Landreth, who have been visiting for the past few weeks with the Dave Sinclair family, returned to their home at Drumbo, Ont. on Monday. Mr. and Mrs. Sinclair accompanied them to Calgary.

Mr. Geo. Cipperley and son Melvin have returned from a trip to the Chicago World's Fair. Although the holiday seekers enjoyed the outing to the full and saw many wonderful things, they had to get near home to see the best growing wheat crops. —Ode Gazette.

Burnside Notes.

Lone Pine W. I. picnic will be held Wednesday July 12th. Bellany's orchestra will furnish music for the dance at night, when the drawing for prizes will take place. Be sure to come and see if your ticket is one of the lucky ones.

There will be a 3 day dressmaking course in the Lone Pine Hall from July 18th to 20th, inclusive. This course is free to all, and everyone is welcome. Those who wish to attend must furnish their own materials, cotton, etc.

Mr. and Mrs. Bert Pross were Sunday visitors at the Bittner home.

Mr. and Mrs. W. G. Liesemer spent Sunday with Mr. and Mrs. N. Eckel.

Mr. and Mrs. Otto Bittner had Sunday dinner with Miss Alberta Metz.

Sam McAllister, John Vinay, Fred Doll and Robert Eckel left Wednesday morning on a week's camping trip to Pigeon Lake, Edmonton, and other points.

Miss Alberta Metz, brother Fred, and cousin Howard and Fred Dedeles were Sunday evening callers at the Eckel home.

Mr. and Mrs. N. Eckel and son Robert, Sam McAllister, Fred Doll, and Percy Saunders took in the Trochu parade on Saturday.

WEEKLY JOKE

Finkelstein: "Of all der wedding invitation says, R S V P, I set dos dot mean?"

Hogeland: "Al, enough ignore, ice, dot means 'Real Silver Wedding Presents'."

Mona and Neapolis Schools' Sports Day

On Friday June 30th the pupils of Mona and Neapolis schools held a sports day at the grounds of the former school.

At 1:30 p.m. the children, keyed up to a high pitch of excitement, took the line for races, the winners being:

1. Girls aged 6, 7, 8: 1st Dorothy Clarke, Mona. 2nd Agnes Tighe, Mona.

Boys aged 6, 7, 8: 1st Jackie Clarke, Mona. 2nd Kenneth Shultz, Neapolis.

2. Girls 9 and 10: 1st Dorothy Bruce, Neapolis. 2nd Margaret Mosler, Mona.

Boys 9 and 10: 1st Abram Enns, Mona. 2nd Kenneth Shultz, Neapolis.

3. Girls 11 and 12: 1st Angela Kohut, Neapolis. 2nd E. Hooper, Neapolis.

Boys 11 and 12: 1st Abram Enns, Mona. 2nd John Enns, Mona.

4. Girls 13, 14, 15: 1st Mae Cook, Mona. 2nd Angela Kohut, Neapolis.

Boys 13, 14, 15: 1st Danny Morasch, Neapolis. 2nd Stuart Hooper, Neapolis.

5. Potato Race, open to all girls: 1st Lizzie Wible, Mona. 2nd Angela Kohut, Neapolis.

6. Sack Race, open to all boys: 1st Valentine Peters, Mona. 2nd Danny Morasch, Neapolis.

7. 3-Legged Race: Girls' 1st Mary Mosley and Mae Cook, Mona. Boys' 1st Stuart Hooper and Danny Morasch, Neapolis.

Following the races a softball game was played, Neapolis school being the winners.

After the game the children hastened into the schoolroom, where they enjoyed a delicious lunch, then, gathering their books and reports they strolled outside to be met with a barrage of peanuts.

Governor-General Visits Boys' Farm

The annual closing exercises of the Boys' Farm and Training School at Shawbridge, Que., were made memorable for the 15 boys of the institution recently when they were honored by the presence of the Earl of Bessborough, Governor-General of Canada, who addressed the school and gave out the prizes. Accompanied by E. W. Beatty, B.C., chairman and president of the Canadian Pacific Railway, who is also president of the boys' school, and a number of directors and well-wishers of the institution, His Excellency was the object of a great ovation by the boys on the arrival of the special train at the Farm. This is shown in top photograph of the layout. Lower left, the Governor-General is shown shaking hands with Major Ralph Wulcock, D.S.O., superintendent of the School, and at the right His Excellency is acknowledging the plaudits of the boys from the steps of the special train. It was the first time in the 25 years' existence of the School that a Governor-General of Canada had taken part in the closing exercises of the institution. His Excellency, addressing the School, stressed character as being of vital importance to success in life.

The People Must Pay.

Few, if any, subjects are engaging the attention of people in Canada, as in most countries, as closely as the subject of taxation. The rising burden of taxes is a matter of deep concern to all. Fortunately, it is receiving serious consideration, not only by those responsible for the administration of public affairs, but by individual citizens.

Taxation in our modern democracies is by no means a simple problem; it is cumulative in effect, and its control is extremely difficult. Every governing and administrative body set up imposes a measure of taxation upon all of us, and, in addition, there are many calls made upon people which, while voluntary in one sense, constitute, in the final analysis, a form of taxation.

First, we have Federal taxation, direct and indirect, and levied in a great variety of ways through such agencies as the tariff, excise duties and taxes, sales taxes, income taxes, stamp taxes of various kinds, license fees. Provincial legislatures follow with a second income tax, land taxes, amusement taxes, license fees to be paid for this, that and the other almost without number. Then the municipalities place another tax on lands, on improvements thereon, some levy a third income tax, some an additional amusement tax, all of them have license fees to charge. The school boards impose further tax to meet the costs of education.

Hospitals have to be provided for, to some extent this is done through taxation. Provincial and municipal, but often this form of taxation has to be supplemented by voluntary contributions, but which, in reality, are a tax on business and incomes. Churches have to be maintained, even though the law may not compel us to do so, and thus people are in effect again taxed if they are willing to be, and most of them are. Philanthropic and charitable organizations and services of all kinds are maintained in the same way.

The cumulative effect of these taxes is almost impossible to handle, until now we find articles appearing in magazines, financial journals, the daily and weekly newspapers recording the hundreds of millions of debt that have been created, and the scores of millions that must be annually raised in taxation, while organizations of all kinds are conducting investigations and studies with a view, to arriving at some means whereby the burden can be lessened, and any further increase of it prevented.

Prevention of any future increase in an easy matter if the people, who are the sufferers, determine there shall be no further increase. Individuals know they must keep within their incomes, or they are headed for trouble and disaster. Private business knows it must accommodate itself to its income, or it will end in bankruptcy. What individuals and business must realize is that what is true in their respective cases is likewise true in public business.

Many people, possibly a majority of them, who are fully aware that they must live within their incomes, have nevertheless acted in the belief that it was not necessary for the governing bodies created by them, and supported by them, to follow the same course. Rather, people have insisted that their governments, Federal, Provincial, Municipal, should provide this and that service, and as the people make and un-make governments, the latter have naturally done what their creators demanded they should do. But these same governments have no income except the power to tax people, and this they have proceeded to do.

What people must realize is that if they demand of their governments certain services they must be prepared to pay for those services. They cannot have them otherwise. And if they cannot afford to pay for them, then there is only one thing they can do, and must be prepared to do, and that is, go without them. That is, in their collective capacity they must govern themselves by exactly the same rules as they are forced to recognize and obey as individuals. If they cannot pay they must be prepared to do without what they would like to have and would have if they could afford it.

It is being predicted that the worst of the depression of the last three or four years is over; that things are once again on the up-grade; that better times are slowly but surely developing; that, in a word, the world is beginning to turn that corner around which it has been said properly is lurking. Let us all hope so. But when we have reached and turned that corner, and we are once again tempted to demand something of our governments we would like to have, and think they ought to supply, it will be the part of wisdom to pause and consider whether, after all, we can afford to have it, because, no matter what it may be, it will have to be paid for, and paid for by us,—the people, and paid through the medium of taxes in one form or another.

Many glowing promises are frequently made, and are still being made notwithstanding the bitter experience of the past few years, of what the State can, and ought, and will do for all the people if certain principles in administration are adopted. But if these wonderful things are done, the people will pay for them in taxes. And every dollar that people have to pay in taxes is just a dollar less left in their own pockets to spend in meeting their individual tastes and desires and needs. Either they are going to do certain things for themselves as they desire to do them, and pay for them themselves, or they are going to have the State do these things for them, as the State may determine they should be done, and then pay the State in taxes for the services so rendered.

In any event, and under all circumstances, the people will do the paying. They too, can do the ordering. They can order beyond their means, and get into trouble. They can order for themselves, according to their own needs and desires, and pay for what they order. Or they can order the State to do the ordering as the State may see fit to do, and then pay the bills incurred by the State. And the decision, whatever it may be, will be the decision of each and every man acting in his or her capacity as an individual free citizen.

The main point to remember is that there is, notwithstanding the mistaken use of the word, nothing free in this world. Everything has to be paid for, and it is the people who have to foot the bills. Therefore, the day and the manner of settlement should always be kept in mind before the liability, whatever it may be, is incurred.

Scientific World Is

Reserving Judgment

As To Whether Living Bacteria Is Found In Meteorites

No successful refutation has yet been put forward of the claim of Professor Charles B. Lipman of the University of California that he has found living bacteria in meteorites, according to Professor F. E. Lloyd, of McGill University, president of the Royal Society of Canada.

While making it clear that he was not committing himself to support of Professor Lipman's theory, Professor Lloyd, who has been in communication with the California scientist, declares that all who know Professor Lipman recognize in him a careful and exact observer who is not given to rushing into half-baked theories. Professor Lloyd declared that Lipman's account seems to indicate that he had taken every precaution he could think of to guard against the accidental transplanting of bacteria into his samples.

The McGill professor also informed The Toronto Star Weekly that an earlier theory of Professor Lipman announcing discovery of live bacteria in cold seas is supported by a German scientist, who, working independently, came to the same conclusions as Professor Lipman.

Like Professor Lloyd the scientific world is still withholding judgment on both cases, although Professor Lipman's announcement as to meteorites is criticized by some who assert that the bacteria must have got into the meteorites after they had reached the earth.

Harnessing Sun Power

May Supersede Water Power As a Source Of Energy

Opening ceremonies of the fifth Pacific Science Congress at Vancouver were featured by the radio address of Lord Rutherford, famous Empire scientist, speaking from Cambridge, England.

Harnessing the sun's power may supersede the hitherto power as a source of energy in the future if large scale development of a power plant at the Smithsonian Institute, Washington, D.C., proves practical. Dr. C. G. Abbot, secretary of the institute, indicated.

Dr. W. S. Adams, director of the Mount Wilson Observatory, California, outlined his theory that sun spots occur in regular cycles of 12 years. At present, the sun is comparatively exposed to the earth, he said. Dr. Adams discounted any connection between weather on the earth and sun spots.

Colonization Plans

Calgary Families To Be Settled On Land In The North

Under a plan proposed by Calgary city council by Rev. O. P. Brown, president of the Land Association of Calgary, 20 families on unemployed relief in Calgary would be settled on the land at St. Paul de Metis, north of Edmonton.

The 20 families have made application for the transfer and efforts to bring them under the Dominion Government back-to-the-land scheme are being made, so the colonization scheme can go through.

The annual crop of icebergs from the Greenland glaciers is about 15,000.

A diamond, when chemically pure, is composed solely of the element carbon.

Daring Burglar Still

Is Puzzling Detectives

"Gimlet" Jimmy Reported To Have Made \$100,000 In Chances Robberies

"Gimlet" Jimmy, the most daring—and elusive—burglar in England, whom detectives have been trying to capture for 11 years, carried out two robberies involving £1,200 in cash, early on a recent morning with lightning swiftness.

The problem facing the police in their hunt for Jimmy is that they have no notion of his appearance.

Nor has he ever left behind him a single clue which, in the event of his capture, would definitely establish his identity with his previous crimes.

Only once has a glimpse been caught of him. That was seven years ago when, in carrying out the greatest coup of his career—the raiding of a Deansgate, Manchester, bank—the night watchman saw Jimmy for a fleeting instant as he ran past a door in making his escape.

But Jimmy, who nearly always confines his activities to the north of England, has one invariable method of approach.

For weeks he watches and learns the habits of his intended victim, usually a wealthy shopkeeper. Then comes the night when Jimmy begins work.

First a visit to his victim's house for the keys of the shop and any valuables in the home safe.

Afterwards, armed with the keys, there is the raid on the shop.

On the latest occasion, Jimmy entered the home of W. Smith, of Ashton-on-Mersey, and, without waking the owner, took a bunch of keys from the bedside and opened a safe in the house from which he took £200.

Half an hour later Jimmy had taken another £1,000 from the safe of Mr. Smith's shop in Gorton.

Jimmy, whose name is "Gimlet" comes from his peculiar method of entering a house through a window, is estimated to have secured more than £100,000 by his burglaries.

A Long Session

Last Session Of Parliament Extended Over 232 Days

The session of Parliament just closed extended over 232 days including the adjournment from November 25, 1932, to January 30, 1933. Only two sessions since Confederation in 1867 have been longer, the longest being the third session of the 11th Parliament which was from November 17, 1910, to July 29, 1911, or 255 days. The next longest was the seventh session of the 12th Parliament, which sat from January 18, to September 20, 1917, or 246 days. The third session of the fifth Parliament sat from January 29 to July 29, 1885, or 175 days. The short session was the fourth of the 12th Parliament which met on August 18, 1914, and prorogued on the 22nd of the same month. Those five days, however, were among the most momentous in Canada's history for in that brief time the Dominion decided on the policy to be adopted in connection with the Great War.

British Built Aircraft

Have Been Granted An Official Distinguishing Mark

British-built aircraft have been granted an official distinguishing mark—a lion rampant in gold within three rings of red, white and blue. Within the white ring are inscribed the words, "British Certificate of Airworthiness." The mark has been registered under the Trade Marks Act.

The air ministry announcement of the new mark, which will at once distinguish British-built flying machines no matter what nation's registration markings they bear, states that the mark is authorized to apply to any aircraft, whether lighter or heavier than air. No fee is required for the authorizing them under the Act.

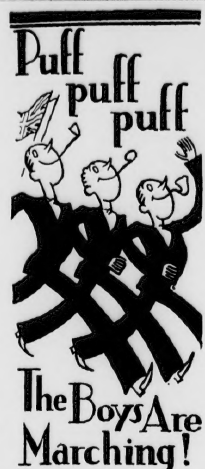

The first aircraft mark authorized was affixed at the London air station, Croydon, to "Astraea," one of the Imperial Airways fleet.

"Jones Minor, your father helped you with this essay?"

"Yes, sir."

"Did he write it all?"

"No, sir. I helped him. I corrected his spelling mistakes."

Put Ogden's Cut Plug in

your pipe and join the parade! Step along with those who've discovered the pleasure that only Ogden's Cut Plug can give to a pipe smoker.

OGDEN'S CUT PLUG

If you "roll your own," use Ogden's fine cut cigarette tobacco and Chantecleer cigarette papers

Not Affected By Depression

New Zealand Has Steadily Increased Volume Of Exports

The effects of the depression upon New Zealand have been to some extent modified by the success of efforts to counter-balance falling prices by increasing production. While other countries have been afflicted by rapid contraction of their export trade, in volume as well as in value, New Zealand has steadily increased the volume of her exports. In 1928 exports were 12 per cent. greater than in 1926; the official estimates for 1931 show an increase of 20 per cent. in five years, and the volume must have been again substantially greater in 1932, for, in spite of a much lower range of prices, the total value was larger than in 1931.—Auckland News.

"In these bad times you can still retain first-class?"

"I have to. I meet my creditors in the third class."

World Famous Scientists Throw Some Light On The Mystery Of The Gulf Stream

Ever since the Gulf Stream was discovered, it has been a source of speculation among oceanographers. Some of its mystery has even reached the layman: Where does the Stream start? Where does it end? What does it do? The recent return to port of "The Atlantis," the floating research laboratory of the Woods Hole Oceanographic Institution, after several months' cruise in tropical waters, solves much of the deep riddle of the Gulf Stream.

According to data collected by world-famous natural scientists from various institutions who made up the expedition's personnel, the Stream is not, as is popularly supposed, a vast ocean current flowing from the Gulf of Mexico through the straits north past the coast of Florida into the Atlantic, passing the British Isles and spending itself in the northern seas.

It is really a huge dynamic current, which, following the above route, sweeps to Spitzbergen and then circles back south via the North Sea and the British Channel to the east of Africa. At that point, the Trade Winds between Cape Verde and the Equator cause the Stream to deflect westward until it finally reaches the Caribbean Sea.

From there it moves to the Gulf of Mexico, and so completes a long dynamic circle. This current is in perpetual motion, varying very little according to the season of the year. Its age is unknown, for it cannot be calculated just when the temperature of the ocean dropped to the point where the Stream began to flow. And its possible future is unpredictable, for no scientist has been able to estimate how cold the waters in its circuit must become before it will no longer be able to move.

As a matter of fact, there is some dispute as to whether the Stream is caused by convection currents, or whether the diurnal turn of the earth on its axis plus its seasonal tilting is responsible for the mighty swirling of the waters of the North Atlantic and neighboring seas.

So, even if the voyage of "The Atlantis" has satisfactorily discovered that the Gulf Stream circles the Atlantic, touches four continents and returns, there is much of the mystery yet unsolved.

Tahiti Telephone Girls Have Excellent Memory

Know Names, Addresses, and Movements Of All Subscribers

"Hello, operator, let me have Bill Jones, please."

"He's not at home right now, but I can connect you with Jack Smith's house, where he has just gone."

That's the kind of telephone service there is today in Tahiti, out in the South Seas, where the operators know the names, movements and addresses of all the telephone owners and speak three languages—English, French and Tahitian.

There is no directory, no numbers to bother with. You just call central and give her the name of the person you want to speak with and here you are. It is quite a feat of memory, however, for there are about 250 telephones on the island.

In the old days, only French and Tahitian were spoken, but since Tahiti has become a paradise for Americans, English can now be used. The salary paid the telephone girls is around thirty dollars a month. At present, there are two operators employed.

Film Magazine (entertaining studios): "Who's that fellow over there?"

Director: "Why, that's Nap bean." Magazine: "Why did you get such a little man to play such an important part?" — Pathinder.

A combined telephone booth, mail box and stamp-vending machine is to be tried in Dunoon, Scotland.

Steam from volcanoes runs factories and trolley-cars in Italy.

Live Fowl Is Not Meat

Montreal Lawyer Proves His Point In Law Suit

Do live chickens constitute fresh meat? Such was the problem involving points of zoology which was left with Recorder G. H. Simple, of Montreal, for a decision when he took under deliberation the recorder's court a case in which a firm of wholesale dealers in live poultry and eggs were charged by the city with having unlawfully kept an unlicensed store for the "wholesale trade of fresh meat."

The charge was made under a bylaw which exacts a \$100 licence fee. But the attorney for the defence, Oxford into such learned works as the Deland and Webster's dictionaries, and produced the definition of meat: the flesh of an animal, in contradistinction to fish and poultry. Fresh meat, he submitted, implied, then, the fresh flesh of animals in contradistinction to fish and poultry. He also submitted and produced lex-cale evidence to prove it—that an animal, when alive, did not constitute meat; it was only when it was dead that it could be termed meat.

"The flesh of poultry," contended counsel, "does not constitute meat, if we deem it to be meat, then when the chicken is alive, it is not yet meat."

System Is Centuries Old

Babylon Had Debt-Adjustment Act To Help Farmers

Governments wrestling with debt-adjustment acts to relieve the farmer and others of debt payments during these days of depression are doing nothing new but using a lot of unnecessary words in their resolutions, amendments and preambles.

Centuries ago they had debt-adjustment acts and moralizations and they were worked tirelessly and to the point. Ernest Wilson, Edmonton lawyer, has produced "Paragraph 48, Code of Hammurabi." It was found inscribed on clay tablets by archaeologists in the ruins of Babylon. It follows:

"If a man has incurred debt, and a storm has flooded his field or carried away the crop, or the corn has not grown because of drought, in that year he shall not pay his creditor. Further, he shall post-date his bond and shall not pay interest for that year." The wise and humane Hammurabi was the sixth king of the first dynasty of Babylon. He reigned around 2250 B.C.

Protected By Treaty

Denver Police Cannot Kill Woodpeckers No Matter How Annoying

The Denver Police department's "woodpecker squad" has been treading on the tender toes of international law, government local attorneys recently pointed out.

Patrolmen A. E. McCasland and L. C. Sawyer, who make up the "squad" were appointed to eliminate the early-morning pounding that has been disturbing the slumbers of Denver citizens.

On one morning the "Woodpecker squad" bagged three redheads in one tree.

Then someone pointed out to Manager of Sirey Carl S. Milliken, that the federal migratory bird treaty had entered into between the United States and Canada protected woodpeckers. Milliken promised federal officials that the woodpecker killing would be stopped.

"Re-arrange the woodpecker's notes," was again heard throughout the city. Sleepy citizens muttered, and cursed, but police-men's pistols remained in their holsters.

It is now possible to manufacture artificial suede leather for shoes or handbags from cotton by a new abrasive process.

Left-handed fountain pens are actually manufactured for the use of left-handed writers. The pen's point is cut obliquely.

By Ruth Rogers

A NECKLINE THAT DOES THINGS

It's young and smart. You can tie it in a bow or wear it in a sporty scarf effect.

Yellow crinkly crepe silk made this cunning blouse.

Wear it for spring with a grey suit or for summer with a white woollen skirt.

A printed crepe silk is smart in poppy red and white combination.

Style No. 704 is designed for sizes 14, 16, 18, 20 years, 30, 35 and 40 inches bust.

Size 16 requires 1 1/2 yards of 29-inch material.

Price of pattern 20 cents in stamps or coin (red is preferred). Wrap cut carefully.

Mining Boom

Ghost Towns Of Western States Have Come To Life

Chest towns of the old west—Tombstone, Virginia City, Leadville, Tonopah, Angel's Camp and many others which reddened and gilded American history a few pages back—may be clothed again with the flesh and blood of a mining revival if metal prices continue to advance.

Signs of resurrection appeared recently in an Associated Press survey of the mining areas of California, Washington, Nevada, Arizona, Utah and Idaho. In each state operations of established firms are stirring newly-injected life.

CHARMING BLONDE CAPTIVATES MOVIE FANS

Margot Graham is voted by England's filming enthusiasts as the most beautiful screen blonde in British movies. The above picture was taken during her latest picture "Yes, Mr. Brown."

Eighteen National Parks In Canada, The Three Largest Being In Alberta And Saskatchewan

Canadian Coal For Coke

Research Work Shows Suitability Of Canadian Coal For Producing Coke

Until recently the coke produced in Canada was made exclusively from imported bituminous coals. This caused Canadian bituminous coal operators no little concern, and as an outcome the Department of Mines undertook to carry out extensive tests, in its Fuel Research laboratories, on coals from both eastern and western Canada. A single unit of a commercial size, horizontal coke oven was erected for the purpose, and the coals were coked alone, and banded both with Canadian and with foreign coals. Efforts were then made to interest operators of coking plants in proximity to suitable bituminous coal supplies in a greater utilization of these commercial plants, which proved beyond doubt the suitability of Canadian coal for the production of a satisfactory coke. At present a number of plants are using Canadian coal exclusively, for the production of gas and coke, while others, operating under more difficult conditions, are using proportions varying from 35 to 50 per cent. It is likely that these proportions will be increased eventually.

An Old Indian Custom

Little Houses, Built Over Graves In British Columbia

Under the towering peaks of "Falling Rocks" mountain range, near Hazelton, B.C., of native gravestone is a blend of paganism and the new faith. Though many of the Indians have been Christianized, complete miniature houses have been built over many of the graves. Clothes and belongings of the departed are placed inside.

In one skirt, shoes, corsets and mirror, brush and comb are hung on the walls. In another an enlarged portrait stands against a trunk filled with garments and toilet articles. Over chiefs' graves stone poems symbolical of their clan are carved. Food is placed in the houses almost daily. It is invariably carried away by wild animals, such as squirrels and rabbits, but the Indians explain the spirits get the food through the wild life.

London's Latest Craze

Tiny models of aeroplanes constitute the latest craze in London, Eng. Although only a few inches long they are exactly to scale, and all well-known types are represented. To lend realism, model hangars, control towers and club buildings are also to be had, to say nothing of many diminutive accessories.

A total of 616,215 persons visited the 18 national parks of Canada in the fiscal year 1931-32. These great reservations cover an aggregate area of 18,000 square miles. Each has its own attractive characteristics. There are three scenic and four animal parks in Alberta, four scenic parks in British Columbia, one scenic park in Manitoba and one in Saskatchewan; one historic park in Nova Scotia and another New Brunswick; one recreation park in Ontario and two island park units. The largest of the parks is Jasper, Alberta, which has an area of 4,200 square miles. It is described as an immense mountain wilderness, with numbers of snow-capped peaks, glaciers, lakes of wonderful coloring, hot springs, a big game sanctuary and one of the finest golf courses in North America. More than 11,000 persons visited Jasper Park last year. Banff, the next largest park, has an area of 2,081 square miles. It is situated on the eastern slopes of the Rocky Mountains. This mountain playground, in which the incomparably beautiful Lake Louise is located, offers as recreations, alpine climbing, riding, swimming, golf, tennis, in the winter months, a variety of sports in the winter months. It is the most popular of all the national parks in Canada. Last year 182,946 persons visited this park. Prince Albert Park in Central Saskatchewan is the third largest park with an area of 1,869 square miles. It is situated in a fertile country and has many lakes and streams in which there are excellent fishing, and all ideal camping grounds for motorists.

All the national parks in Canada are easily accessible by motor car, and within the borders of the parks are 567 miles of trails, 2,514 miles of trails and 1,060 miles of telephone lines. The smallest of Canada's national parks is at Point Pelee, a short distance from Windsor, Ontario and Detroit, Michigan. This park, only 6.04 square miles in area, is at Canada's most southerly latitude. Next to Banff, it attracts the largest number of visitors. Last year over 150,000 persons went there in 38,165 motor cars, over 80 per cent. being from the State of Michigan. This park constitutes one of the finest bird sanctuaries in Eastern Canada. It is one of the principal routes of migration for birds to and from their northern breeding areas and is one of the most attractive places in Eastern America.

All the national parks in Canada are open to visitors to whom every facility for enjoying the recreational advantages is offered.

Indians Are Learning

Held Out For Better Deal On Lease Of Lake

After some months of negotiation on the Carlyle reserve the Indians finally have made their peace with the white man.

Today's Indians, better versed in business than their forefathers, thought \$400 was too small a sum for surrender of a lake and the township of Carlyle on a 90-year lease. Now the tribe has received a 25-year lease and \$800 a year for the first 25 years and an additional 10 per cent. on all rentals after the first five years.

New Mail-Carrying 'Plane

High-Speed Machine Built For British Air Ministry

The newest high-speed mail-carrying aeroplane built for the air ministry by a London concern is an all metal biplane, with two Bristol "Pegasus" engines. It has a cruising speed of 172 m.p.h. with a top speed of nearly 200 m.p.h.

It will pick up and drop mails in flight. The pickup-gear, it is expected, will be similar to that used by the Royal Air Force—a dropped line with trailing hook.

Eighty-eight elements are now generally recognized by chemists. Claims have been made for the discovery of four more.

WEDDINGS.

BERSCHT—KENNEY.

The home of Dr. and Mrs. Kenney at Olds was the scene of a charming summer wedding on Wednesday evening, July 5th, when their third daughter, Alice Louise, was united in marriage with Mr. Russell Edward Berscht, elder son of Mr. and Mrs. J. V. Berscht. Rev. Mr. Pringle performed the ceremony in the presence of about fifty guests.

The lovely bride, who was given away by her father, wore an exquisite dress of white embroidered chiffon, the starched chiffon arranged in ruffles fitting close to the neck in front and falling in a V at the back, also forming a ruffle below the knees. Her wedding veil, which was caught with orange blossoms, forming a cap, fell in long graceful folds to the floor. She carried a shower bouquet of Madam Butterfly roses.

Her twin sister, Miss Lillian, in blue silk, organic in pastel shade with touches of pink, and pink shoes, and Miss Margaret Hunter in white organic with green eyelet embroidery and green shoes, were the bridesmaids. Both wore shepherdess hats in matching shades and carried colonial bouquets. Mr. Leonard Berscht, brother of the groom, acted as groomsmen.

The spacious home was beautifully decorated with pink and white pennants. The ceremony took place in front of an arch decorated with wild roses, from which was suspended a white wedding bell of rose petals.

As the bride approached the arch on the arm of her father to the strains of Lohengrin's wedding march played by Miss Evelyn Liesemer, she was preceded by her niece, Miss Marion Davey, dressed in blue with pink trimming, and carrying a basket, with a bow of pink tulle, from which she scattered rose petals in the path of the bride.

During the signing of the register Mr. Walter Gooder sang "For you alone."

After the ceremony a reception was held. The mothers of the bride and groom assisted them in receiving the guests. The former was dressed in black lace and georgette and the latter in blue crepe remain with gold embroidery. They wore corsage bouquets of roses.

A buffet-luncheon was served. Mrs. Eric Hodgson cut the wedding cake and Mrs. W. W. Hunter and Mrs. J. Rothall poured tea. Misses Thelma Butcher, Ruth Brubacher, Mary Holton, Isabel and Cunningham Currie and Helen and Gertrude Kenney assisted in serving.

The groom's gift to the bride was an Aerograph; to the bridesmaids sterling silver bracelets; to the groomsmen, a leather wallet, and to the pianist, a party bag.

The numerous and beautiful gifts received by the bride and groom testified to the high esteem with which they are held by their many friends.

Mr. and Mrs. Berscht left on a motor trip for the coast. The bride chose as her travelling costume a suit of powder blue bunny cloth, with grey accessories. Upon their return they will reside in Didsbury.

Guests were present from Toronto, Ontario, Medicine Hat, Three Hills, Drumheller, Didsbury and Olds.

FORD—COATES.

A quiet wedding took place in Calgary on Monday, July 3rd 1933, when Miss Grace Coates, daughter of Mr. and Mrs. W. Coates was united in marriage with Mr. Eddie Ford.

The Rev. Mr. Ing, late of Carstairs performed the ceremony, and Miss R. Clements and Mr. C. R. Ford attended the bride and groom.

Following the ceremony a reception dinner was given at the York Hotel, after which the happy couple left by motor for Vancouver on a short honeymoon. On their return they will take up their residence on Hespeler Street.

WEEKLY SERMONETTE

"If having a good time is all there is to life, a monkey has a man out-distanced completely, both in amusing others and in being amused."

BLISS—KREBS

On Wednesday, June 28th, 1933, the home of Mr. and Mrs. August Krebs, Didsbury, was the scene of a very pretty wedding, when their only daughter, Ethel Margaret was united in marriage with Harold A. Bliss, of Didsbury.

The bridal party entered the room to the strains of Lohengrin's Wedding March played by Miss Gladys Carlson. Miss Mildred Hawthorne, niece of the groom, was bridesmaid. Mr. Eddie Krebs supporting the groom. Master Howard Krebs was ringbearer, while winsome little Mildred Taylor scattered flowers before the bride. Miss Krebs, the picture of girlish loveliness, in white silk crepe with conventional veil and orange blossoms, and carrying a bouquet of pink and white carnations, was given in marriage by her father.

The Rev. A. J. Mitchell performed the ceremony under an arch of green, the room decorations being carried out in pink, white and green.

During the signing of the register Miss Gladys Carlson sang, "I Love You Truly." Miss Dorothy Ranton playing the accompaniment.

Congratulations and best wishes were extended to the happy couple, after which a sumptuous luncheon was served to about sixty guests. During the evening friends were entertained at a wedding dance.

Mr. and Mrs. Bliss left on Thursday for a motor trip to the mountains and on their return will reside in Didsbury.

The bride, who has been guest of honor at two showers recently, was the recipient of gifts of linen, silver, crystal, and china, attesting the popularity of this couple, whose friends all join in wishing them a long and happy wedded life.

HEYER—SNYDER.

A very pretty wedding was solemnized by the Rev. H. J. Wood, of Didsbury, Alberta, on Wednesday, June 28th, 1933 at 3 o'clock p.m. at the home of Mr. and Mrs. Samuel Snyder, Cremona, Alberta, when their third daughter, Ruby Verdi was united in marriage with Roy Henry Heyer, of Westward Ho, Alberta, only son of Mr. and Mrs. D. H. Heyer, of Brentwood Bay, B. C.

The bridal party entered a prettily decorated parlor to the strains of the Wedding March, played by Miss Alma Heyer, of Brentwood Bay. The bride, who was given in marriage by her father, looked picturesque in a white crepe wedding gown with lace sleeve caplets, and carried a shower-bouquet of Ophelia roses. Her maid-of-honor, Miss Miriam Harder, and bridesmaid, Miss Bessie Snyder, sister of the bride, were gown in coral and pale green flat-crepe, each carrying a bouquet of roses and sweetpeas. Mr. Clare Snyder, brother of the bride, supported the groom.

A reception followed the ceremony and a bounteous supper was served. The tables were prettily decorated in coral and green streamers. The bride's table was centred by a 3-tier wedding cake.

After supper the happy couple left for a month's holiday at the coast, where they will be the guests of the groom's parents at Brentwood Bay. The bride's travelling attire was a flowered crepe dress, with a brown tweed coat and hat to match. Upon their return the couple will reside at Westward Ho, Alberta.

Mountain View Notes

The monthly meeting of the local W.I. was held at the home of Mrs. Ed. Barnes on June 22nd, when arrangements for the annual picnic were made and the date changed from July 5th to July 7th, to be held in Community Hall grounds, with a big dance at night: Hammers' Orchestra. The W.I. conference is to be held July 25th at Carstairs, and a sewing course on July 13th, 14th and 15th at Community Hall. A paper on "Canadian Industries" was given by Mrs. Worral and enjoyed by all. The meeting closed with a sumptuous lunch served by the hostess.

Mr. J. McPherson and Miss Viola Kinney, of Calgary were recently visiting friends here.

Mrs. A. M. Nisbet and daughters Isabel, Jessie, Florence and Mrs. Richards, of St. George's, Ontario, were visitors at the E. A. Atkinson home Tuesday.

CARD OF THANKS

Mr. and Mrs. Harold Bliss wish to thank all their kind friends for the beautiful gifts received in honor of their marriage.

Elkton Notes.

"Banjo Daddy" is to give a concert in the schoolhouse tonight (Thurs.).

Miss Mann, Elkton teacher, left on Sunday for her home at Edmonton and will return to open school on September 4th.

Rugby football team played Elkton on Sunday afternoon, when the home team won. The game was played at Mr. F. Byrt's, so that both the players and spectators could indulge in swimming between times.

Elkton school picnic was held on Friday last, with parents and pupils all present. Races and softball were the orders of the day. Glen Evans received a jigsaw puzzle donated by Mrs. Russell, of Didsbury, for the highest average marks in the school for the June exam. Jean Reimer obtaining the other puzzle for being second. In the evening dancing was participated in, and all reported a good time.
